Dear Friends,

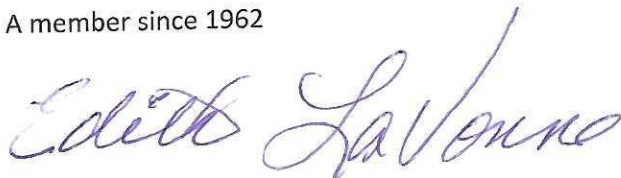

Some of you requested information about the boxes I gave Denise Everhart. It took a while to remember contents on some but here goes. I gave Ms. Everhart 13 banker boxes and when I unloaded them Mrs. Kati Blevins was there.

- The first box contained original documents such as: first lease with city: loan note of loan with Mrs. Baker, plus proof of completion of payments. First Board and bylaws, map city provided on area we leased. Registration with IRS on 501( C ) 3 status. Basically everything to set up the Barn. Approximately first 10 years
- Another box contained all paperwork from Our lawyer who had died on everything he had done including prosecuting information on a person who embezzled from the Barn.
- All records on Barn Guild including treasurers reports, donors, and fund raising.
- Old treasurers reports, secretaries minutes and list of donors by year. All need for taxes and which must be kept for 10 years. There were more yeas than that.
- Old plays we had presented with total breakdown of costs and profits
- Lists of Lifetime members and board elections information.
- Somewhere in a box was copies of papers filed with City, County and IRS. Including renewing non-profit status. And all building additions such as warehouse, green room, bathrooms, etc.

There was much more , but I did noy check what was in all the boxes. I did on one occasion provide Susan Uptain access to the box with original history. She also saw all the boxes stacked in my office.

I'm still remembering those boxes and would be happy to answer any questions you might have.
